

Mötesprotokoll

Möte 8

Discussion items:

1. We talked about updating our domain model. Discussed what to have in the domain model.
2. Discussed what to include in the RAD document. Should we improve it?
3. Discussed when to finish JavaDoc.
4. What is SDD document? What to include?

Outcome:

1. We decided to update our domain model, but only include the model.
2. Include domain model in RAD document. Talk to Felix on how we can improve it.
3. Decided to have our game covered with JavaDoc notations this Friday.
4. Decided to create an SDD document. Live document to me refined after every iteration. No strict rules on how to write it.
